SUMMARY

Full stack developer with internship and freelance project experience building responsive web interfaces and REST APIs. Uses React, Next.js, TypeScript, Node.js, and PostgreSQL to deliver maintainable features, validated workflows, and accessible layouts.

EXPERIENCE

Full Stack Developer Intern

BlueOak Technologies, Jaipur, India | Feb 2026 - Jun 2026

- Built reusable React and TypeScript components for an internal operations dashboard used across 8 screens.
- Implemented Express and PostgreSQL endpoints for record management, filtering, and pagination.
- Added request validation and consistent error responses; fixed responsive layout and form-state issues found during testing.

Freelance Web Developer

Independent | Oct 2025 - Jan 2026

- Developed a responsive marketing website in Next.js and Tailwind CSS, with editable page content managed through Sanity.
- Worked from client-provided references, tested layouts on mobile and desktop, and documented content-update steps.

PROJECTS

StackBoard | Team Task Manager

Next.js, TypeScript, Prisma, PostgreSQL, NextAuth

- Developed task boards with creation, assignment, due dates, status filters, and role-based access.
- Added server-side validation, paginated task lists, and authentication-protected routes; deployed on Vercel.

Cartwise | E-commerce Storefront

React, TypeScript, Node.js, Express, MongoDB

- Built a responsive product catalogue with search, category filters, cart management, and an order summary.
- Integrated API-based product data and handled loading, empty, and failure states across the shopping flow.
